Appeal

Aluminium Extruders' Council – (ALEX) – is a registered association, working as a common platform for Aluminium Extrusion and related industries. Since 2004, the association has organized four conferences and exhibition focussing on Aluminium Extrusion Technology. These conferences were very well received with good and enthusiastic participation by Industry. ALEX also publishes a bimonthly journal and conducts training programmes for the industry.

During the interaction with the participants in various conferences and programmes, a need was indicated for having a Directory of Extrusion Industry, which can serve as a source book for Extruders, Suppliers to Extrusion Industry and users of Extruded profiles for various applications. Some overseas participants also expressed that such a directory will help them as a data base for sourcing in increasingly competitive international business environment in coming years.

Considering all above, we propose to publish a Directory of ALEX by July 2012. The various categories that are included are enclosed herewith for your ready reference.

We now appeal to you and solicit your support in our endeavor to compile up-to-date and correct data of all companies and organizations connected with Aluminium Extrusion Industry. We sincerely believe that entry to directory can help you in your business plans in coming future.

We are enclosing herewith Directory Entry Form and request you to send the same back to us duly filled in as early as possible. It may be noted that the **Entry in the Directory is Totally Free.**

We however, request your support by way of providing us your contacts who you feel should be in the directory but we may not be knowing them. We also request you to consider an advertisement in the directory which will further support for association's endeavour.

We trust that with your participation, the Directory can be of good value to the Industry as a whole.

We look forward to your early response.

Regards,
ANAND JOSHI
